

NOBI↑ CONVERTIBLE

For Education K thru 12 and Anytime/Anywhere Computing

EDUCATION

NOBI CONVERTIBLE is a revolutionary mobile computing device designed specifically to meet the unique learning needs of elementary and middle school students. Purpose built to enhance both teaching and learning, the NOBI engages students with “real PC” performance in a durable, transportable, and affordable solution for classrooms around the world and in your community. Consult with your educational customers and plan a pilot program (Rugged / Low Cost / Kid Friendly / Windows OS / Software / Web Camera)

Anywhere / Anytime

NOBI CONVERTIBLE is the perfect anytime/anywhere complimentary computing companion for elementary and middle school students. It is intended to be the first affordable mobile convertible computer that incorporates touch functionality in a bi-directional LCD screen. Navigate through your applications using only your finger or stylus, create and watch documents, sketch objects and scenes, and collaborate with others using the built-in Webcam and microphone. Without the size, weight and expense of a full-sized notebook or transportable, you're able to access the internet and email, listen to your music- even store and view photos. (Rugged / Low Cost / Windows OS / USB / Wireless / Card Reader)

Processor	Atom N450 1.66GHz Processor
Chipset	Intel® NM10 Express Chipset
